

You are required to carry a certificate of a negative RT-PCR test result to be allowed by the border authorities to enter the country. The certificates should be written in English and bear the name and passport/national ID number of the traveler. You may be retested upon arrival at your point of entry in Greece.

Important: You will receive the PLF document with the QR code on the day of your scheduled arrival in Greece (at midnight). You will be notified again via email and this URL will be automatically updated. The PLF document is only valid with the QR code. If travel departure begins prior to the day of arrival, travelers are allowed to board after showing the confirmation email (and not necessarily the QR code which is scheduled to arrive during their trip).
